ABOUT INSTITUTE:

“Technosys Training Institute” is a full fledged Technical training Institute formed to eliminate the crisis of skilled Human resources in the field of Testing and Commissioning of Electrical and Instrumentation.

It has its knowledge supported by Technosys Engineers and Consultants (Chennai) Pvt. Ltd., who is continuously successful in the field of Commissioning for about a decade.

ABOUT INSTRUCTOR:

It also has trained Instructors who can take care of training Fresh and Experienced Engineers. Those instructors are not merely trained to teach about theory but with their experience in field for more than 10 years they can teach the candidate how the theoretical knowledge can be made useful for obtaining practical results.

RESOURCES:

Technosys Training Institute is equipped with latest technology involving newly launched Testing instruments and Relays. It also has the basic equipments like Current and Voltage Transformers to gradually train the candidate from grass route level.

PLACEMENT:

Candidates who finished training from Technosys Training Institute will be placed to following companies who have tie-up with the Institute.

- **ABB**

- **AREVA**

- **Crompton Greaves**
